

AIW750iN

High Performance Invisible Loudspeaker

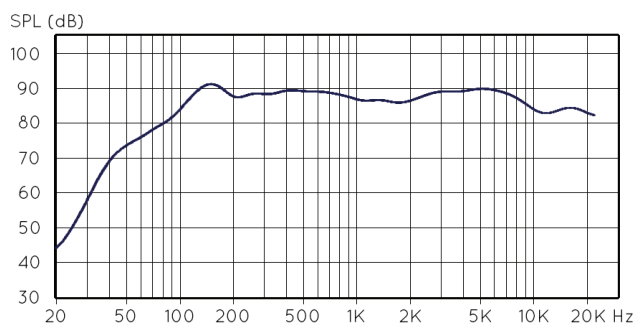

DATASHEET V2.2

amina

Product Description

The AIW750iN is the flagship loudspeaker within the Evolution series, offering the best high frequency detail and low frequency extension of any Amina Invisible Loudspeaker. Comprising of a 2-panel design, the AIW750iN is rendered invisible behind a 2mm skim of plaster or a number of other materials such as wood, veneers/laminates or leather. It is the perfect solution for aesthetically sensitive applications where a discreet subwoofer cannot be used.

This completely invisible, high fidelity loudspeaker uses OptiModal, OptiDamping and OptiDrive technologies to give greater bandwidth, clarity and focus.
