

# TLS Table Installation Module

## TLS Table Installation Module Universal application

Where  
price and  
performance  
meet

A well-known problem: the **seminar or meeting room has to have the latest technology** for example: ceiling mounted projectors or media units. But where are external devices (e.g. laptops) connected ??

The TLS Table Installation Module fits elegantly into any kind of conference table. The **individually customised TAM** means that even with devices connected, it is possible to use the whole table surface.

### Advantages:

- no cables in the way on the conference table
- clear and easy installation
- installation made easy with factory customised cables
- user-friendly installation and deinstallation with removable support frame
- flexible connection slot system allows all signal combinations
- **technical highlights and elegant design**

# TLS Table Installation Module

**TLS Table  
Installation Module  
offer the right  
connection possibilities**

Over **100 signal slots** offer the right connection possibilities for the broadest variety of specification requirements
