# TLS floor connection module

**For  
universal  
use**

**A brilliant solution basing on TLS technology**

A well-known problem: the seminar or meeting room has to have **the latest technology**. But where to put all the connection cables on the floor ?

The Floor connection module puts things in order in every room.

The individually customised module guarantees universal use through **perfect cable guide** (without needless cable bends).

Safe and easy installation in all standard floor channels such as Ackermann and Tehalit.

## **Advantages**

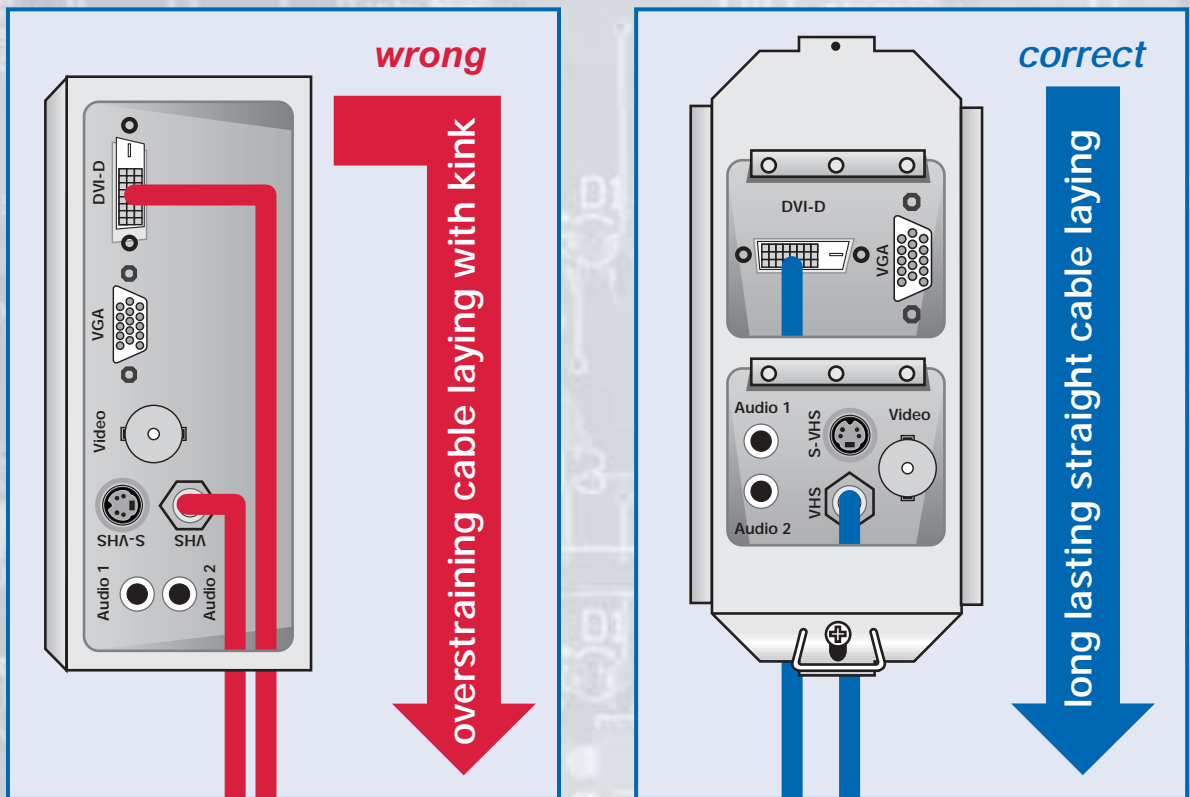

- no cables in the way on the floor
- clear and easy installation
- installation made easy with factory customised cables
- no open floor tanks in your conference room
- flexible connection slot system allows all signal combinations
- **useful technical highlights**

## Brilliant prospects for your cable

You are looking after **proper laying of cables** anywhere in order to guarantee the best possible look.

**But why do you already kink the cable at the first meters in the floor tanks?** The TLS floor connection module offers you the ultimate solution.

Here the cables are let out of the floor module in running direction in order that **no interferences** occur due to the cable and that you have managed a clear and elegant solution for the cabling.

### Scope of delivery BAM:

- 1x floor connection module GB2/GB3
- 1x for screws fastening
