

A-BUS® Multi-Source Amplified Keypad

AB-134W / AB-134IA

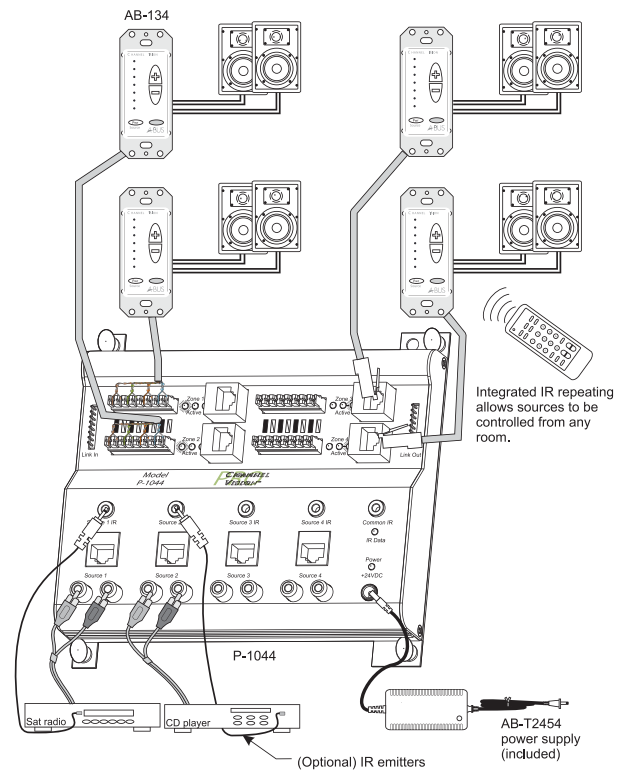

The AB-134 is Channel Vision's next generation of class D amplified keypads for single-source and multi-source A-BUS audio systems. The AB-134 has convenient volume control and source selection capabilities, and its elegant decorator styling blends in seamlessly with other wall switch devices. The AB-134 is 36% more energy efficient than its previous model with an increase in A-BUS audio performance.

Features

- Locates the amplifier in the room - power and source control remotely
- Remote or local push-button control
- Single-gang screwless decorator plate included
- Back-lit keypad with blue LED indicators
- Integrated IR Repeating system

Wiring Diagram

Specifications

- Operating Voltage :** 24VDC 2.3 Amps
- Cable requirements:** CAT5 or better
- Speaker impedance:** 6-8 ohm
- IR repeating:** 30-60kHz
- IR sensor range:** 40' @ 40kHz, 25' @ 56kHz
- Operating Temperature:** -10°C to +50°C
